

Sen. Eddie Lucio, Jr., Austin, TX.

Dear Sir/Madam:

Please accept this letter of support for the Annova LNG terminal in South Texas. As the State Senator representing Cameron County, I welcome the economic development and job creation opportunities provided by Annova's investment in South Texas.

The explosive growth of the oil and gas industry has Texas well positioned making the United States a top producer and global leader. Projects like the proposed Annova LNG terminal make efficient use of the natural gas byproduct, thereby reducing waste and reducing pollution created by gas flaring.

I'm proud to have been re-elected by the citizens of Texas Senate District 27 on the issue of support for the presence of the LNG industry at the Port of Brownsville. If I may be of further resource to you, please do not hesitate to contact me.

Sincerely,

Eddie Lucio, Jr.
State Senator
